

Communicate Better with Those with Dementia

Dementia Raw Training

Eric Brewer Immel, Photographer

Dementia Raw is a free, interactive communications workshop for families caring for someone with memory loss. It combines the rules of improv comedy and principles of empathy to better understand what it's like to be the person with dementia. Families will learn to overcome everyday communications challenges.

We offer both a 90 minute overview class and a six session series for those who want more intensive training.

Both options at your location at no charge and we serve all five boroughs.
